OPIMUM BROWN ARRIVES

Turns up suddenly from the Orient.

Dan Vida is on the Dope Schooner, which is now fifty days out. Supposed to be near the Islands.

"Velocity" Brown, otherwise known as "Opium Brown No. 2," is in town from Hongkong. His schooner which has the dope and also Dan Vida—on board, is now exactly fifty days out from the China port. She is therefore very close to the Islands, if, indeed, she has not already touched somewhere.

Brown boarded the Gaelic at Yokohama. At that port he admitted having sent a schooner to Hawaii. She was then thirty-six days out. There was no denial of the fact that she was loaded with opium. Dan Vida, the man to whom the town centers most interest, was aboard, said the owner of the schooner.

When they read this, Vida's friends will be on the watch out for that gentleman. He may turn up first at Pearl harbor, Nihaui or Kahoolawe. A second man to Brown is, of course, in charge of the schooner. It is not believed Vida knows much about the expedition, its objects or the cargo aboard. The second man will land Vida at some out of the way place and then tell him there is a good road to Honolulu, either by land or by steamer, as the case may be.

Brown is reticent about the cruise of his schooner. He refused to talk of the matter to W. H. Cornwell on the voyage over from Yokohama. In town this morning he was much in a hurry, having a great deal of business before him. All the men in the "deal" were to be seen.

Dan Vida left here nearly a year ago to go around the world. He got sick of sea travel before the Orient was reached and decided to return. Brown's schooner was fitted out for Honolulu and he took passage aboard of her.

GOOD AUDIENCE LAST EVENING.

The Orpheum was filled again last evening even though it was Monday night. The applause which greeted each performer shows how much the Honolulu public appreciates a good show. Each individual member did their parts well, and was called out three and four times. The opening comedy, "Peck's Bad Boy," is full of fun, it will be repeated again this evening.

INFLUX OF ITALIANS.

NEW YORK, May 3.—Italian laborers are rushing to this country in a vast army. The first of this army reached here last Saturday, and since then 4925 Italians have landed. The number of all other nationalities received during the same period reached 3955.

WOUNDED AT MALOLOS

Assistant Engineer Winship of the Bennington.

While Covering the Landing of Men He Was Caught by Filipino Bullets. Well-known Here.

Assistant Engineer Emory Winship, of the Bennington, one of the heroes of the fight at Malolos, is in Honolulu on his way to San Francisco, carrying the honorable wounds he received in the Philippines. He is on the armed transport Solace. On arriving in San Francisco he will go to a hospital, but hopes to be able to reenter the service within a few months.

Mr. Winship's wounds, which were very severe, were received while he was in command of men and guns covering the landing of men from the Balakian. The Filipinos were opposing the landing in force and concentrated a heavy fire on Winship and his men.

Winship speaks very modestly of the matter. "The firing came my way," he says, "and I got it."

Winship has many friends and acquaintances here and has been receiving congratulations on his bravery and regrets for his wounds, from scores of them since the Solace arrived yesterday afternoon.

Another well-known and well liked officer of the Bennington, Ensign E. H. Campbell, is now on office on the Solace. He, too, has been renewing many pleasant acquaintances.

COMMITTEE'S REPORT READY.

Representatives Selected for Omaha Exposition.

The report of the special committee on the Omaha exposition is ready to be submitted to the Chamber of Commerce. It is a lengthy affair, covering all the details of the subject. The chamber will receive and discuss it tomorrow.

It is recommended that Hon. A. S. Cleghorn be appointed commissioner and Daniel Logan secretary. The idea of sending two men is to have the delegation more representative. Mr. Umsted feels satisfied that the team mentioned will be a strong one. He recommends that \$10,000 be placed at the disposal of the commission. This is to be raised partly by contribution of the chamber and the Planter's association and partly by popular subscription.

Mr. Umsted has placed in McInerney's, Hobron's and other windows, fine views of the last exposition at Omaha.

NO SHOW FOR THEM.

One Jury Will Not Sit in the Bald Head Row Tonight.

The jury in the Kahuku murder case won't sit in the bald head row at the show tonight, and some one in the jury room has sixteen good seats to sell at less than \$5 each. It is needless to say that the men who have the destiny of the Japanese rioters in their palms are hot.

At noon today, Judge Perry informed the jury, in the solemnity of his solemn tones, that he could not permit them to visit the theater. He suspected that the Supreme court would object to the proceedings, and that it will be. There was a hush over the jury. The men were disappointed.

LAND AT UPSET.

Agent Brown sold an acre lot of land at Waiwala at noon today. There was no one around except a native boy. The land was knocked down in the Waiwala company, the applicant, for \$100 the upset price.

GOING HOME.

W. A. Randall, assistant to Major Purdy, who has been in the Islands for a number of months, returns to the mainland by the Australia this afternoon. He will be the jovial paymaster, was recalled to Washington.

COMING ENCAMPMENT.

Companies of the local regiment will leave on a special train Saturday afternoon for Remond grove. Arrangements for the camp will, in the meantime, be made. Most likely there will be a sham battle between battalions. The band will probably go along.

MAUNA LOA'S REPAIRS.

A large quantity of material needed to make the repairs on the Mauna Loa arrived by the Australia, and the work of repairing is now going rapidly forward. The repairs required, however, are so extensive, that it will be some time before they are completed.

APOLLINARIS.

(The Queen of Table Waters.)

1887	11,894,000 bottles
1895	19,526,000 bottles
1896	21,973,000 bottles
1897	22,585,000 bottles

The ever-increasing popularity and the pre-eminence of Apollinaris are clear to all from the foregoing quantities bottled at the Apollinaris Spring, Remish, Prussia.

Far exceeding the fillings of any other mineral spring in the world.

The "Times" London, says, regarding Apollinaris: "These figures are more eloquent than words."

MORE OF THEM USED.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Berger, agent, Bethel street.

JAPANESE TESTIFY TODAY

How the Kahuku Murders Came About.

Answered the Call for Help of Their Comrades and Were Set Upon By the Chinamen.

The defense has had today in the Circuit Court in the Kahuku murder case. Altogether four witnesses, all Japanese, have been examined. Their testimony, in brief, has been that they heard the cry of their comrades, from the Chinese quarter, for help; that they ran over and were set upon by the Chinamen. They are endeavoring to establish that they were acting in self defense in the fight. No denial is made of the killing and wounding.

The testimony of the Japanese has been remarkably similar. Each claimed to have been moved by the same impulse, that of answering the "hail" of their comrades. They say, also, that the Chinamen did show fight from the outset.

It is hardly possible that the case will be finished before Friday. A day or more will be taken for argument.

In the matter of Kan Wing Chow vs. A. M. Brown and Chas. F. Chillingworth, damages, defendants have filed a demurrer, and for cause that the facts alleged do not constitute a cause of action also, that there is a misjoinder of parties defendant, J. M. Kanehika, for defendant; E. P. Dole, for plaintiff.

In the matter of F. J. Testa vs. J. P. Kahahawai, et al., assumpsit, defendants have filed a bond on appeal in the sum of \$1,000. On the bond are: J. P. Kahahawai, William White, D. L. Keku, D. K. Kalaokalani, D. Kalaokalani, and T. C. Polikapa.

J. F. Humburg, guardian of the Podely minors, has filed a petition in Circuit Court to be allowed to sell the property of the minors on Piko, these being their only estate and means of support. W. A. Henshall for guardian.

Judge Stedley and a foreign jury today heard the case of Frank A. Farla vs. J. M. Lemes, damages. At 12 o'clock a verdict was returned for plaintiff for damages in the sum of \$100. Both sides noted exceptions and motions for new trial. Correa, for plaintiff; Robertson & Wilder, for defendant.

THE HAWAIIAN ISLANDS

NEW HAND BOOK OF INFORMATION ISSUED.

Foreign Office Put Forth a Very Neat and Attractive Pamphlet Which Will be of Value to Visitors.

The Hawaiian Islands, a hand book of information issued by the Department of Foreign Affairs, has been published. It is a satisfactory and elegant little book, in every particular. The descriptive and statistical portion of the work has been done by the veteran journalist, Daniel Logan, who has put his matter together in good literary form, and in an attractive manner. In this portion of the work there is a full and complete list of the prospective settler, the tourist and even the resident, and Mr. Logan deserves credit for his industry in collecting his facts and putting them into such compact form.

In his introductory remarks Mr. Logan states there is no intention of booming the country for colonization as there are "more good people here now than can be placed in situations, either dependent or independent." The information given will serve as answer to numerous enquiries with regard to "Native" commerce, financial, agricultural and educational matters, which pour into the various Government offices.

There are forty full page illustrations, which are most artistically arranged, surrounded with small vignettes and designs illustrative of various phases of Island life. These are extremely attractive and show most realistically the scenes in which we live, from the wave kissed shore to the fires of Kilauea, and from the fine public buildings of Honolulu, to the interior and exterior of our largest sugar mills. In fact the selection of pictures has been an extremely happy one, and the Sunset Photo-Engraving Company, of San Francisco, has done its share well, in reproducing them.

Among the views there is only one blemish, and that is the one entitled "Native Types." These are four hula girls and a lady on horse back with the new cut of date hair. These are not native types any more than four ballet girls and a circus rider would be American types. It is not that there is any objection to the subject of the plate, but it is a distinct misnomer to call them native types. It is the old rut here showing, that something strange and "bizarre" should be depicted.

POLICE COURT.

In Judge Wilcox's court this morning Sam Lad was fined \$5 for assault and battery on Simeon Makua.

All other cases, save two of drunkenness, went over to future dates.

WHOOPING COUGH.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgettstown, Pa. For sale by all dealers and druggists, Benson, Smith & Co., general agents, Hawaiian Islands.

WILL BOARD TRANSPORTS

PORT PHYSICIAN TO WATCH FOR SMALL POX.

Appearance of Disease at San Francisco Alarms Local Board of Health—The Case of the Grant.

Hereafter all transports arriving at this port will be boarded outside by the port physician. This will effect ships from San Francisco as well as the Orient. It is a quarantine measure.

An important special meeting of the board of health was held this morning at which the matter was fully discussed. It was the unanimous conclusion that the order should be given to take effect from today.

Heretofore the board of health has trusted to the surgeons on board of transports in the matter. A few weeks ago, however, the Grant went into San Francisco with small pox on board. Nothing was known of the disease until it appeared at the Presidio. Then the Grant and also the Sherman were quarantined.

This appalling neglect of the surgeons on the Grant thoroughly alarmed the local authorities. A conference was held with Dr. Carmichael, local head of the United States marine service, and he agreed that the city would be justified in taking all precautions.

The reason for boarding transports from San Francisco is the danger that the disease may spread at the Presidio. In case soldiers with small pox arrive here on transports they will be comfortably quarantined in quarantine and the vessel will be kept outside.

THE WEATHER.

Bureau, Punahou, 1:30 p. m.

Wind moderate north northeast; weather cloudy; signs of clearing.

Morning minimum temperature 69; midday maximum 79; barometer 30.00, steady; rainfall 18; humidity 71 per cent; dew point 67.

CURTIS J. LYONS, Observer.

COMMITTED FOR TRIAL.

Native Accused of Burning Long House in Manoa.

Nehemia Kaainoni was arraigned in the police court this morning on the charge of maliciously setting fire to and burning a house in Manoa valley belonging to the Long estate. Defendant waived examination and was committed to the Circuit Court at the August term for trial.

This case will be remembered. The house was burned on a night early in April. A mystery overhung the matter for some time. Marshal Brown finally offered a reward of \$250 for the conviction of the guilty party.

Naoho, who is related to the Longs and was interested in the burned house, went to work to secure the reward. His investigation resulted in evidence to cause the arrest of Kaainoni. It is shown that defendant wanted the job of repairing the house. Upon being refused it is assumed that he burned it for spite's sake.

The burned house was worth about \$400.

TO VOTE ON MATTER.

A meeting of the Commissioners of Education will be held Thursday afternoon, to decide upon the matter of select school. As the situation now is, indications are for the abolition of the fee but the retention of the restrictions will likely accept this as a compromise measure, leading, perhaps, to the desired end.

UNKNOWN DROWNED.

At Ke Au Hou, Puna the body of a Japanese supposed to have been drowned was found a few days ago. It was in an advanced stage of decomposition. It was found at the water's edge by Charles Stone. The clothes were found in a bundle some distance away. It is supposed he was drowned while fishing. There is no clew to his identity.

LONG TRIP OF THE SOLACE

Has Nearly Circumnavigated the Globe.

Took Men and Stores to Dewey—Was Complimented by the Admiral—Interesting Spanish Cannon Aboard.

H. M. Cardozo, a Virginia lad, and ship's writer of the Solace, gives an interesting account of the trip of the Solace. She left New York February 1st and Hampton Roads February 6th. Her first stop was at Malta, where St. Paul was shipwrecked. Port Said was reached February 25th. In passing through the Suez canal a sailor deserted, jumping overboard with no money and at a point fifty miles from human habitation, in the desert.

Colombo, Ceylon, was reached March 10th. At Colombo the Dutch flag ship Holland and the Dutch cruisers Piethe and Friedland were met. They sailed in company with the Solace much of the way to Manila. Between Colombo and Manila the German frigate Arcano was met, and visits were exchanged between commanders on the high seas.

Manila bay was reached March 23d and the Solace anchored alongside the Olympia. Admiral Dewey sent his compliments to the Solace on her speedy and successful voyage.

Manila was left April 23d and Yokohama reached April 30th. There all hands had liberty until May 3d, when the Solace sailed for Honolulu, and reached here yesterday, having circumnavigated more than three-quarters of the globe. The Solace left New York in the closing struggles of the big storm, which wrecked so many vessels on the New England coast, the worst storm in half a century. But since leaving Hampton Roads only the best of weather has been experienced.

The officers of the Solace are: Commander Andrew Dunlap, Lieutenant-Commander F. W. Coffin, Executive Officer, Lieutenant Harry Kimmell, Navigator, Lieutenant W. L. Miller, Ensigns W. T. Chiverus and E. H. Campbell; Passed Assistant Engineer J. M. Pickelard, Surgeon William H. Rush, Assistant Surgeon Lippert, Assistant Paymaster Samuel Bryan.

Lieutenant Walker, a son of Rear-Admiral Walker, is in command of the detachment of marines.

The Solace has a complement of 125 men, and is bringing about 200 men, whose term of service is about to expire. She has as passengers Assistant Engineer Emory Winship and Lieutenants Miles C. Gorgans and Harry Minnett.

Lieutenant-Commander F. W. Coffin, the executive officer, served throughout the war on the New York and took part in the exploits about Santiago.

The Solace took about 200 men to Dewey and 2500 tons of naval stores. She is bringing back a large number of captured Spanish guns, four of them modern Krupp guns, but many of the others old fashioned brass cannon of the last century.

The Solace will leave for San Francisco Thursday or Friday.

MEMBERS' FIRST VIEW.

There will be a members' first view of the pictures and other works of art of the Kilohana Art League's spring exhibition, Friday evening. Cards of invitation have been sent to the members. The exhibit promises to be a very interesting one. It has been suggested that the entire exhibit might be secured as a part of the Hawaiian exhibit at the Omaha exposition.

STOCK EXCHANGE MEMBERS.

B. F. Dillingham, Albert Rags and C. J. Falk were yesterday elected members of the Honolulu Stock Exchange. Mr. Rags is a comparatively recent arrival in the Islands. C. J. Falk was formerly with Wilder's Steamship Company at Mahukona; and is now connected with R. R. Hind.
